Model HE5000 Fort

— Hyperbaric Oxygen Chamber

Your Gateway to Advanced
Wellness and Recovery

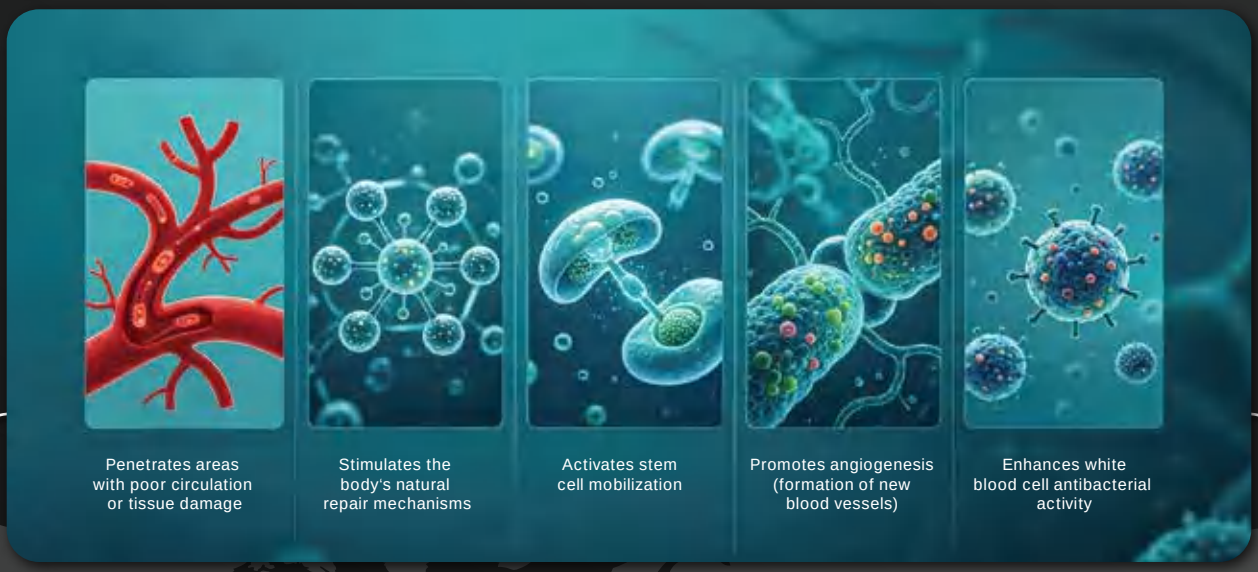

Model HE5000 Fort

— How It Works

Hyperbaric Oxygen Therapy involves breathing nearly 100% oxygen inside a pressurized chamber, where atmospheric pressure is elevated to 1.3–2.0 ATA (Atmospheres Absolute). Under these conditions, oxygen dissolves directly into blood plasma at dramatically increased concentrations – up to 10 to 15 times normal levels – bypassing red blood cell limitations. This super-saturation of oxygen:

Scientific Principle: Under normal pressure, oxygen is primarily carried by red blood cells. Under hyperbaric conditions, oxygen is forced to dissolve directly into plasma and all body fluids, reaching tissues that standard circulation cannot effectively serve.

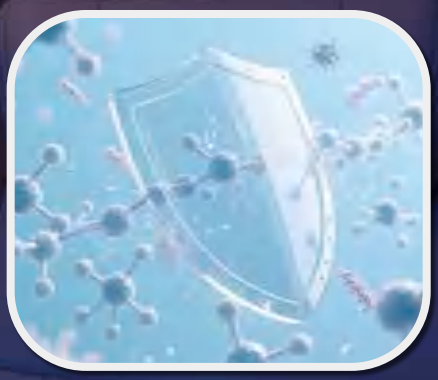

This non-invasive, drug-free therapy has been clinically studied for a wide range of applications and is supported by decades of medical research.

Key Benefits of the HE5000 Fort Chamber

- **Accelerated Recovery & Sports Performance**
  - Shortens recovery time from intense training and competition
  - Reduces post-exercise muscle fatigue and inflammation
  - Helps athletes return to peak performance faster
- **Wound Healing & Tissue Repairt**
  - Enhances healing of chronic and non-healing wounds
  - Supports post-surgical recovery
  - Improves outcomes for burns and soft tissue injuries
- **Cognitive & Neurological Support**
  - May improve memory, attention, and processing speed
  - Shows promise for post-concussion symptom relief
  - Supports recovery following neurological events
- **Anti-Aging & Wellness**
  - Promotes cellular regeneration and skin rejuvenation
  - Reduces oxidative stress and inflammation
  - Enhances overall vitality and sleep quality
- **Immune System Support**
  - Boosts natural immune response
  - Helps combat bacterial infections
  - Reduces systemic inflammation

Evidence Note: Clinical studies have demonstrated HBOT's efficacy in reducing hospital stay duration, improving wound healing outcomes, and decreasing infection risks in various medical settings. Research also indicates improvements in sleep, anxiety, and quality of life measures following HBOT protocols.

Product Showcase

— The HE5000 Fort Experience

The HE5000 Fort is a premium hard-shell multiplace hyperbaric chamber engineered for the highest levels of performance, comfort, and safety. As the first true multi-person chamber in the HE5000 series, it transforms HBOT from a single-user device into a versatile wellness space for families, clinics, and wellness centers.

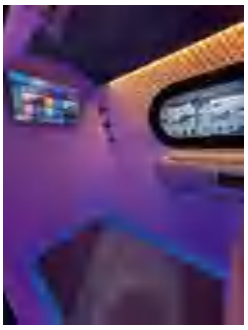

Key Advantages for
HE5000 Fort

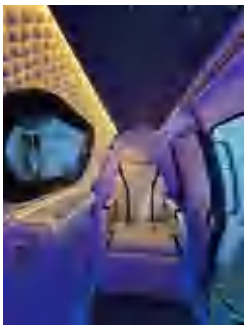

- **1–2 Person Capacity**
  — Ideal for families, clinics, or group therapy sessions
- **2.0 ATA Maximum Pressure**
  — Delivers professional-grade therapeutic intensity
- **Integrated Oxygen Concentrator**
  — 90–97% oxygen purity for enhanced air enrichment
- **Dual Control Access**
  — Intuitive internal and external control panels
- **Advanced Safety Systems**
  — Emergency pressure release and rapid deflate in under one minute
- **Quiet Operation**
  — Internal noise virtually silent; external around 50dB
- **Integrated Air Conditioning**
  — Maintains refreshing internal climate (approx. 10°C)

Interior Comfort Features:

- **Bright, open design**
  — Reduces feelings of claustrophobia
- **Luxury leather seating**
  — Soft, supportive comfort for extended sessions
- **LED lighting**
  — Gentle illumination for reading or relaxing
- **Built-in entertainment**
  — TV unit for distraction during longer therapy
- **Temperature regulation**
  — Integrated cooling system for heat-sensitive users
- **Two-way intercom**
  — Crystal-clear communication at all times

Spacious, bright interior with luxury seating and entertainment system

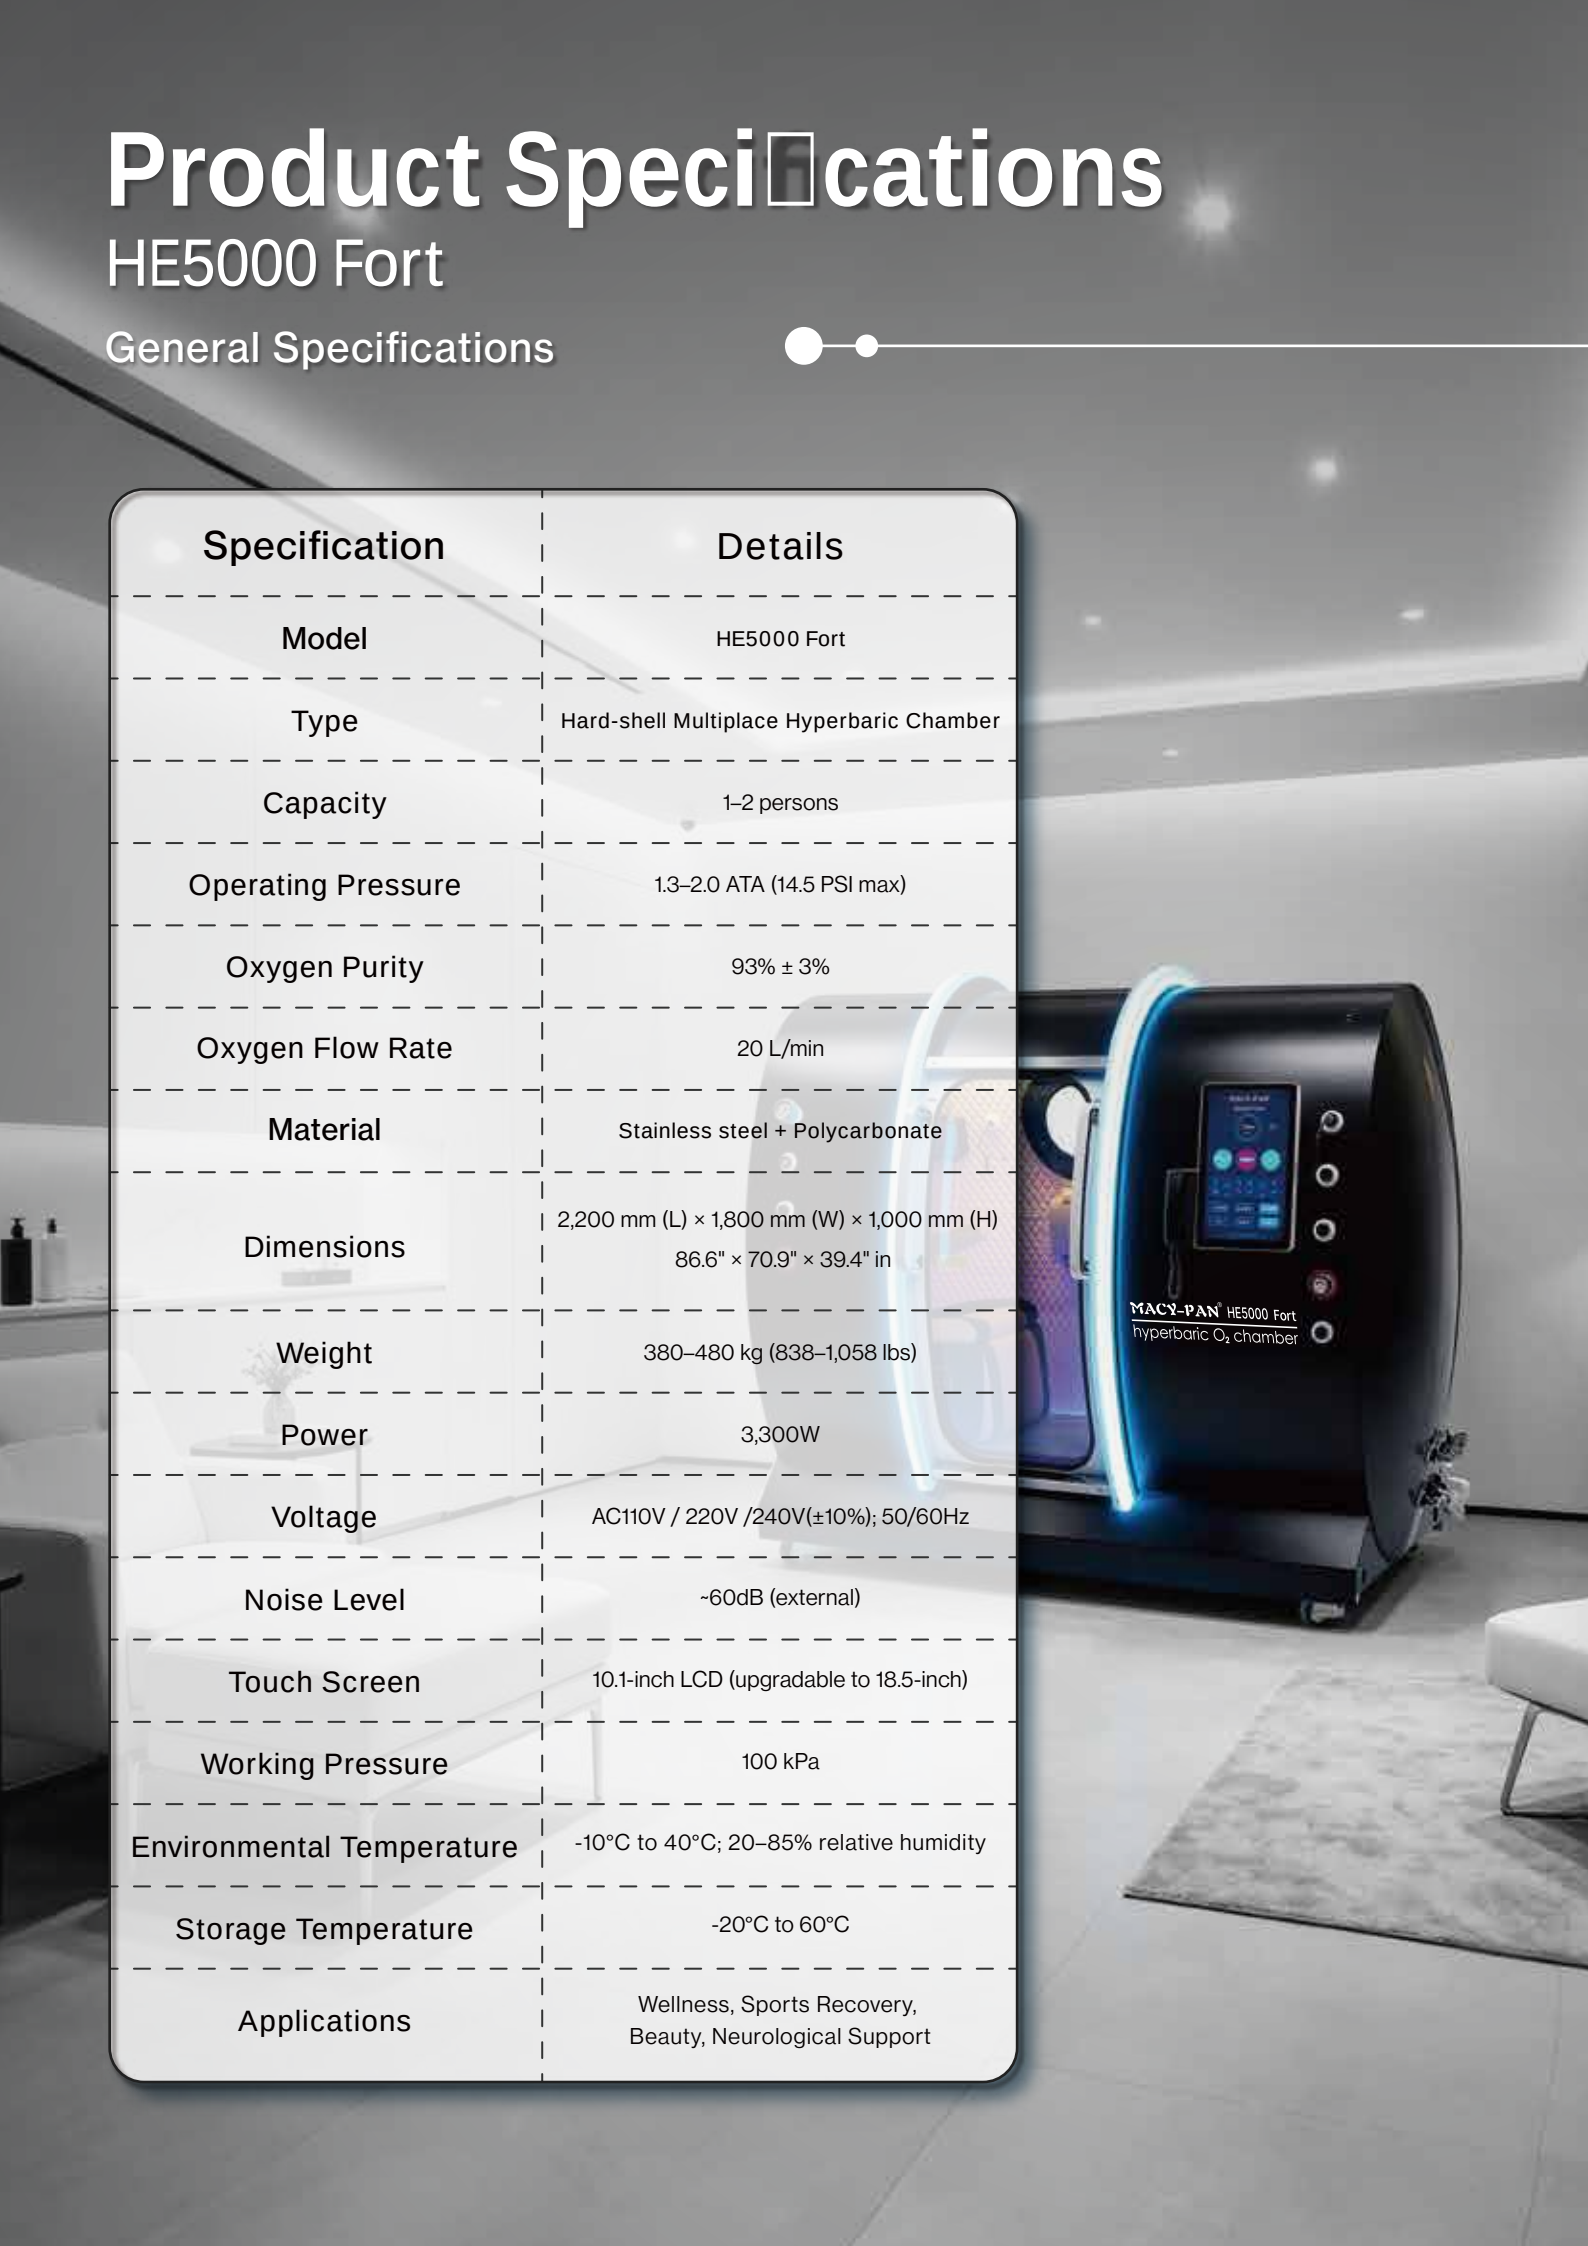

Product Specifications

HE5000 Fort

General Specifications

Specification	Details
Model	HE5000 Fort
Type	Hard-shell Multiplace Hyperbaric Chamber
Capacity	1–2 persons
Operating Pressure	1.3–2.0 ATA (14.5 PSI max)
Oxygen Purity	93% ± 3%
Oxygen Flow Rate	20 L/min
Material	Stainless steel + Polycarbonate
Dimensions	2,200 mm (L) × 1,800 mm (W) × 1,000 mm (H) 86.6" × 70.9" × 39.4" in
Weight	380–480 kg (838–1,058 lbs)
Power	3,300W
Voltage	AC110V / 220V /240V(±10%); 50/60Hz
Noise Level	~60dB (external)
Touch Screen	10.1-inch LCD (upgradable to 18.5-inch)
Working Pressure	100 kPa
Environmental Temperature	-10°C to 40°C; 20–85% relative humidity
Storage Temperature	-20°C to 60°C
Applications	Wellness, Sports Recovery, Beauty, Neurological Support

Control & Interface Features

External control panel with manual overrides and emergency stop

Internal control panel for independent user operation

Touchscreen tablet controller displaying pressure, time, and key data

Manual decompression knob for fine-tuned pressure control

Dual LCD displays (inside and outside)

Real-time pressure gauges (internal and external)

Safety Systems

Emergency stop button

Quick-release decompression valve

Rapid deflate system (releases pressure in under 1 minute)

Automatic deflate valves for pressure stabilization

Smart door sensors

Carbon dioxide removal device

Overpressure protection

Optional Upgrades & Customization

- **BIBS** (Built-In Breathing System)
  Enhanced oxygen delivery system allowing users to breathe high-purity oxygen through a mask while maintaining the chamber's pressurized ambient air environment. Increases therapeutic efficiency without altering chamber pressure dynamics.
- **Red Light Therapy Add-On**
  Integrated full-body red light therapy system that installs cleanly inside the HE5000 chamber. Enhances cellular healing, reduces inflammation, and elevates the overall therapeutic experience.
- **Custom Color Options**
  Available in white, black, silver, or personalized OEM color of your choice.
- **Upgraded Touchscreen Display**
  18.5-inch large LCD screen for enhanced visibility and control.
- **Additional Oxygen Headsets**
  Connects up to 5 extra oxygen headsets for multi-user sessions.
- **TV & Bluetooth Audio System**
  In-chamber entertainment package for relaxation during longer therapy times.
- **Adjustable Seating Configurations**
  Over 7 seating configuration types available to suit various settings — from solo wellness sessions to group therapy environments.

Why Choose the HE5000 Fort?

Feature	HE5000 Fort Advantage
Pressure Capability	2.0 ATA — professional-grade therapeutic intensity
Capacity	1–5 persons — ideal for families, clinics, group sessions
Construction	Stainless steel + polycarbonate — durable, hygienic, transparent
Support	Worldwide delivery, professional installation, lifetime support
Comfort	AC, quiet operation, luxury seating, entertainment system
Ease of Use	Dual internal/external controls — user-friendly touchscreen
Quality	ISO 13485, ISO 9001, CE, SGS certified
Safety	Multiple redundant systems — emergency release in under 1 minute

How to Purchase
– Complete Buyer's Journey

Step 1: Inquiry &Contact Methods:
Direct email: xuyun@macy-pan.com
Phone consultation: +86+18017021667
Video product demonstration
(available upon request) Consultation

Step 2: Quote & Proposal
We will provide a detailed quotation including:
Chamber unit price (standard configuration)
Optional upgrades pricing
Shipping costs (calculated based on destination)
Applicable taxes and duties (customer responsibility)
Installation and training fees (if applicable)

Step 3: Order Confirmation & Payment
Payment Methods:
Bank wire transfer (T/T)
Credit Card

Step 4: Delivery & Logistics
Shipping Methods:
Sea freight
(door-to-door service available)
Air freight
Rail transport
Worldwide delivery with
door-to-door service available

Step 5: Installation
Installation Services Include:
On-site professional installation
by certified technicians

Step 6: Training & Handover
Training Package Includes:
Comprehensive operator training (in-person or video)
Chamber operation protocols
Safety procedures and emergency response
Maintenance schedule and cleaning guidelines
User manual and documentation

Step 7: After-Sales Service & Warranty
Warranty Coverage:
Standard manufacturer warranty
(duration specified at purchase)
Covers manufacturing defects and component failures
Extended warranty options available
